Dear Keir:

As the producer of MAGIC – Beyond Belief!, this year's public show for the Mile High Magicians Society, I wanted to jump-start the show in a big, magical way and establish the fact that this was going to be a great evening of magic.

As our opening act, you and Shelley provided exactly what our committee was looking for. I can't think of a better way we could have accomplished that. You came onstage, immediately established a wonderful stage presence and connected with the audience. Your magic was big, bold and beautiful and the audience loved it. Your show continues to get better and better each time I see it.

I heard nothing but rave reviews about the show itself, which was the annual fund-raiser for the Mile High Magicians. We had first-class entertainers performing in a first-class show, playing to a sold-out house! It doesn't get much better than that, and you and Shelley were a significant part of that success.

Take a bow, you two! And thanks again. Don't be surprised if we call on you again.

Sincerely,

*Lindsay Smith*
